Introduction

This is the second national tracking poll by Global InfoAnalytics in 2022 following the first baseline poll which was carried in January 2022.

The Quarter 2 poll was carried out between 7th - 18th April 2022 in all the sixteen (16) regions and sixty-eight (68) constituencies.

Methodology and Approach

Sample Size

- A total sample size of 5120 was chosen

Margin of Error

- The Margin of Error was estimated using population of size (N) of 4,685,495 and a sample size of 5,120, resulting in MoE of $\pm 1.799\%$ at 99% confidence interval.

Sampling Method

- 34 constituencies that were previously selected under convenient sample was repeated for purposes of establishing polling trend.
- Additional 34 constituencies were selected using random sampling. The previous constituencies polled in January were excluded prior to running the random simulation model to select the constituencies. Thus, giving the remaining 241 constituencies an equal chance of selection.

Sampling Frame

- The 2020 Electoral Commissions voters' register was used to allocate samples
- Allocation of interviews was based on the total registered voters in the constituencies relative to the 68 constituencies selected.
- For each constituency selected, the location for the interview was also selected randomly from three Electoral Areas of the constituency.
- Voters older than 16 years were interviewed as part of the poll
-

Sample Allocation

- The following table shows the number of samples allocated to each constituency during the face-to-face interview with voters.

Summary of Polling Report

Direction of the country

67% of voters believe the country is heading in the wrong direction compared to those who believe it is heading in the right direction, 26%. 7% of voters indicated that they have no opinion. Compared to baseline poll, the proportion of voters who believe the country is heading the wrong direction increase from 58% to 67%, representing +9%.

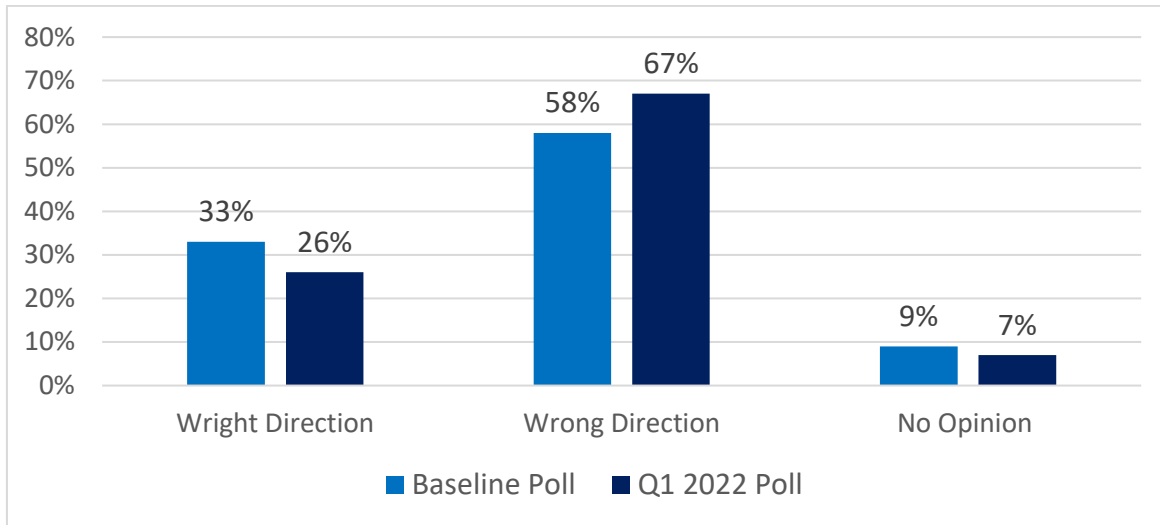

Figure 1 Direction of the country

Analysis of the data shows that 47% of NPP affiliates in April are of the view that the country is heading in the wrong direction compared to 35% in January 2022, this representing an increase of 12% of the period. For NDC affiliates, 84% believe the country is heading in the wrong direction in April compared to 80% in January 2022, representing an increase of 4%. For Floating voters, the new poll saw an increase from 64% in January 2022 to 69% in April 2022.

Only NPP affiliates believe the country is heading in the right direction of a sizeable margin as 47% agreed to the question. However, this represent a drop of 10% from January 2022 where it stood at 57%.

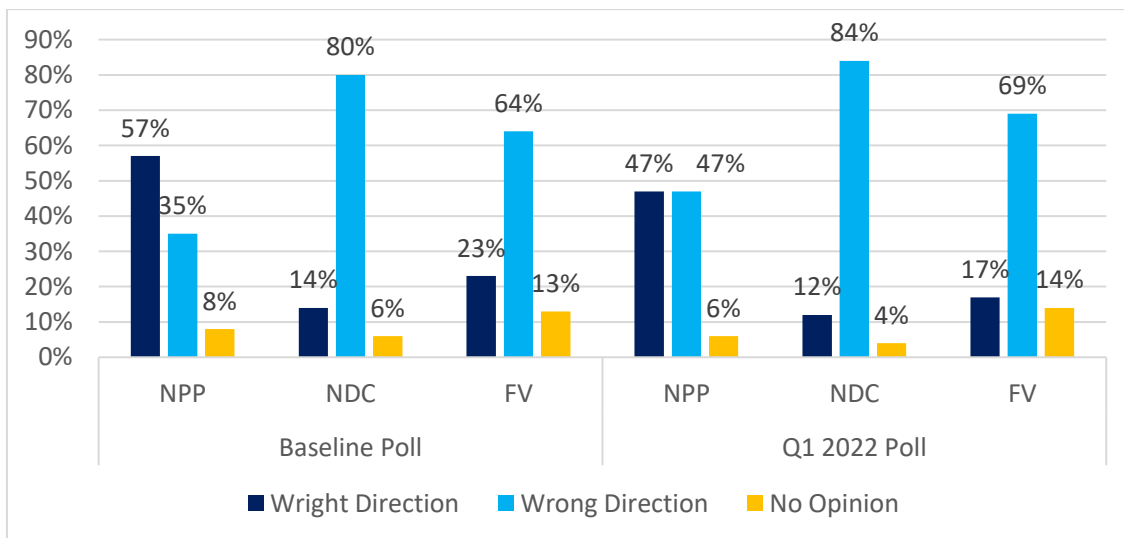

Figure 2 Direction of the country by party affiliations

President's Job Approval

The president approval rating saw a drop of 7% in April 2022 compared to January 2022. In the current poll, only 27% of voters approve of the president's performance compared to 67% who disapprove him, resulting in net approval rating of -40%.

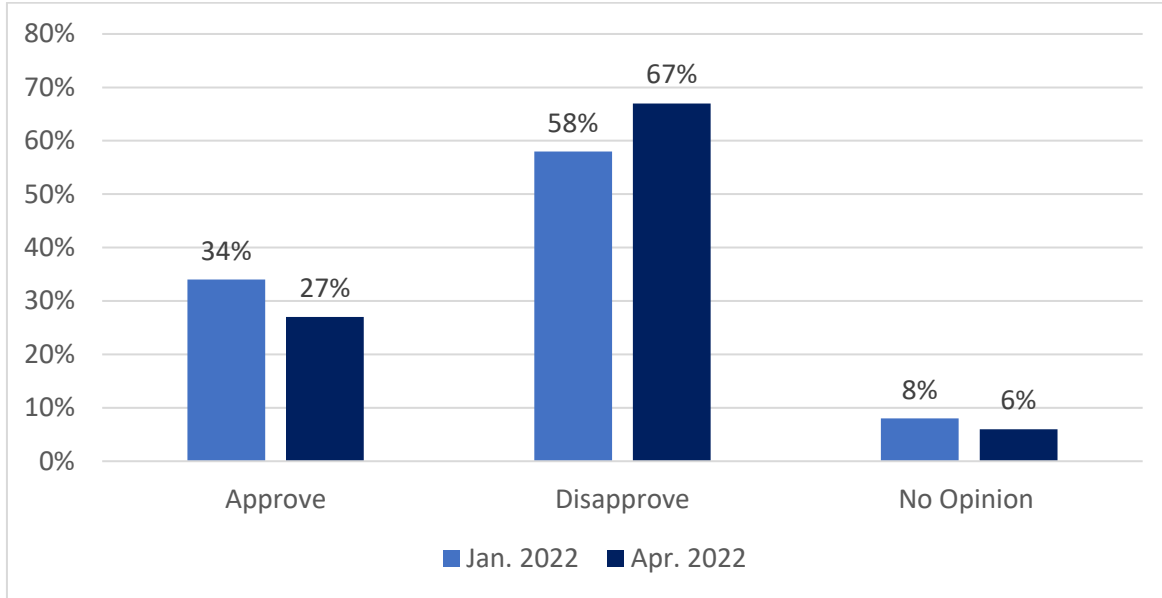

Figure 3 President's Job Approval

Compared the January 2022, the president's disapproval increased from 58% to 67%, moving in the same direction as voters who believe the country is heading in the wrong direction. Voters who don't have opinion declined from 8% in January to only 6% in April.

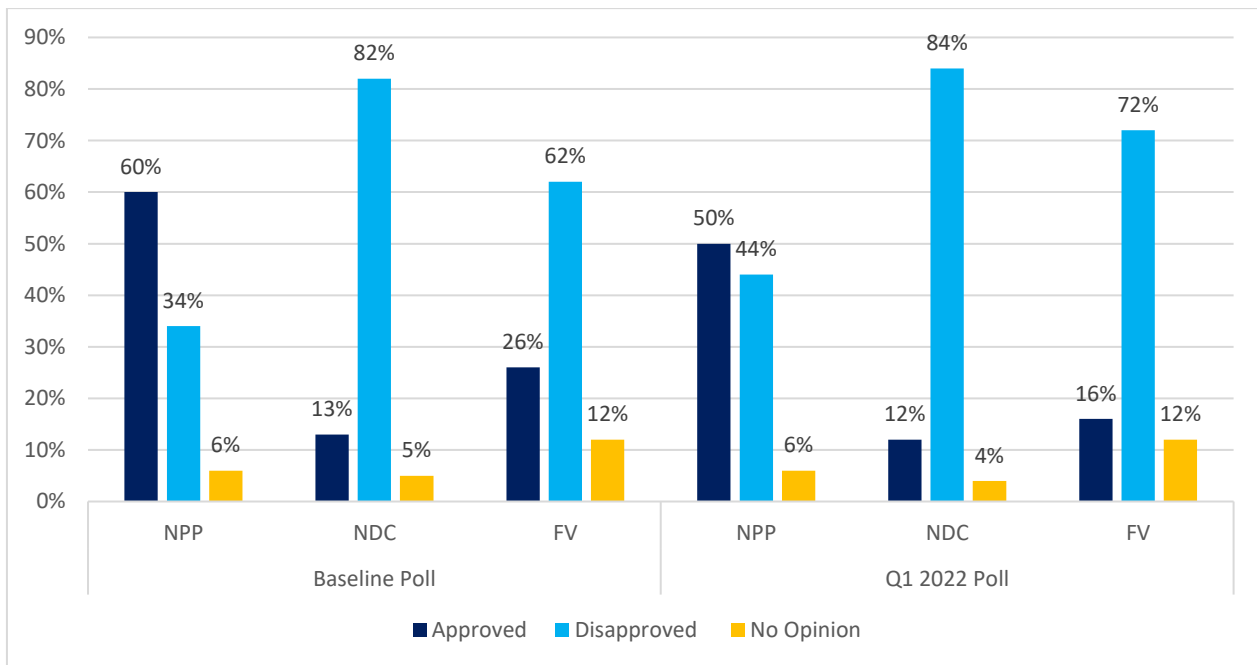

Figure 4 President's Job Approval by Party Affiliations

The poll also shows that only 50% of NPP affiliate voters believe the president is doing a good compared. 44% think he is performing poor and 6% don't have opinion. For NDC voters, 84% believe the president is doing a poor job compared to 12% who believe otherwise with 4% having no opinion. In the case of floating voters, only 16% believe the president is doing a good job, 72% believe he is doing a bad job as president whilst 12% have no opinion.

These results are significantly worse than the results from the baseline poll where 34% of NPP affiliates believed the president was doing a bad job, an increase of 10% from 34% to 44%. For the NDC, there was an increase of 2% from 82% to 84% whilst floating voters saw a jump of 10% from 62% to 72%.

Government performance

The overall performance of the government also saw a deterioration as only 25% of voters believe the government has performed very good/good. 49% of voters rank the government as poor/very poor in April poll. Only 5% rank the government excellent with 21% suggesting it is an average performance. Compared the January poll, the government performance deteriorated as the proportion of voters ranking the government performance as excellent drop from 7% to 5% very good/good from 32% to 25%, average from 24% to 21% and poor/very poor from 37% to 49%.

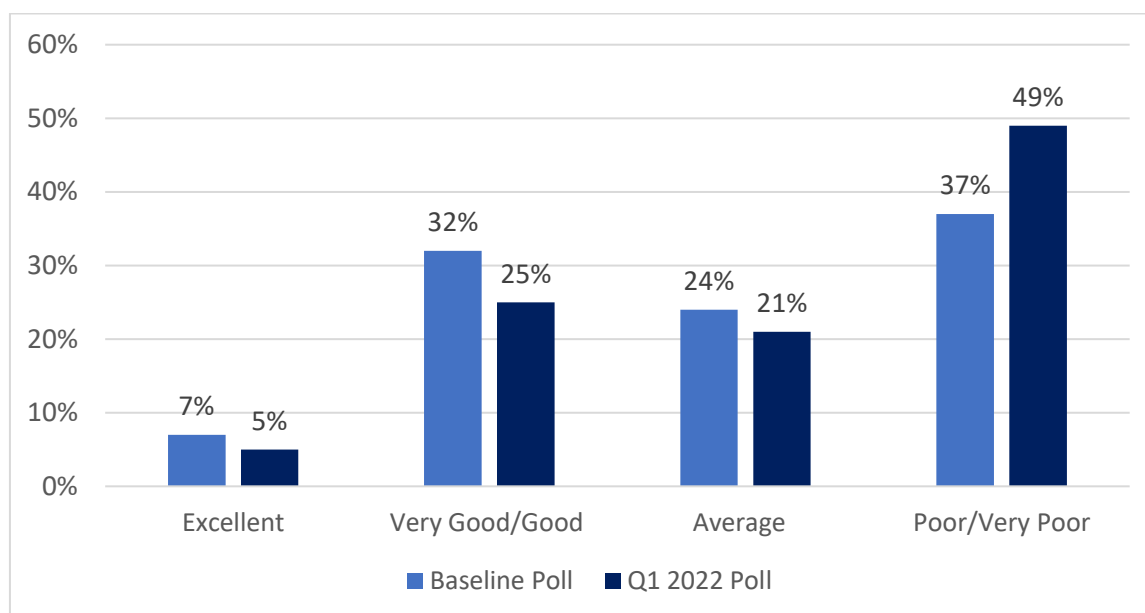

Figure 5 Performance of the government
